

SALES KIT

S2K now offers a compact Sales Kit. A slim, lightweight black folder that encases 6 signs, complete with various anodised finishes as well as paint and graphics.

A selection of brochures are also included inside the front cover. A perfect way to present to customers at sales meetings. To order the S2K Identity Systems Sales Kit, please fax or email a Purchase Order.

Sales Kit Consists of 6 Samples described below:

157.5mm W x 126mm H with a painted header panel 63mm High, plus 3 inserts in New York Finish each at 21mm H and secured with 12mm radius Sidelocks. Graphics are included.

105mm W x 105mm H with a header insert at 42mm High plus 3 X 21mm inserts. They include a 1.1 slider insert (21mm High with acetate and another slider insert with an aluminium slider plate for in use / vacant signs. Graphics are included.

105mm W x 126mm H with a painted header insert at 84mm High and a 1.1 slider insert with clear acetate cover and a 21mm Paper Hanger attached to the bottom Insert. Graphics are included.

105mm W x 105mm H with a header insert at 42mm High with Braille and Tactile graphics, a middle insert at 21mm High and a footer at 42mm High. The footer is a slider insert with acetate. It is secured with 6mm square cut Sidelocks. This sample includes the Tamper Proof locking option most suited to exterior use and vandal prone areas. Graphics are included.

105mm W x 105mm H with a header at 42mm High and a Bulletin Board below at 63mm (The Bulletin Board accepts paper inserts for easy changeover with the use of flexible End Caps). Standard Sidelocks on header section. Flexible grey End Caps on Bulletin Board section.

105mm W x 147mm H. A single panel insert in a satin natural anodised aluminium finish. The Insert is secured with standard Sidelocks. The Insert is made up with an aluminium plate attached to laminating inserts. This method allows insert sizes to be higher than 126mm in order to accommodate larger panels whilst maintaining interchangeability.
