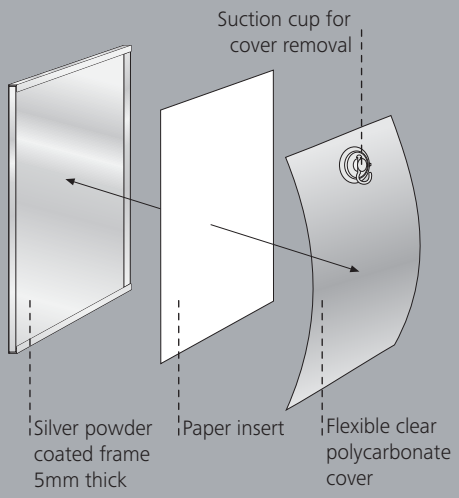
ARCHI-FRAME SERIES

Archi-Frame is a simple framing system that allows you to print and change your graphics as often as you need to.

Archi-Frame is a powder coated aluminium aluminium frame with a flexible clear polycarbonate face.

Archi-Frame is designed to provide an efficient and effective means of displaying and interchanging graphics information with a minimal investment of time or resources.

Graphics can be produced quickly and easily by the user, enabling signage to be amended or updated whenever required.



FINISH

The standard finish is powder coated aluminium

- Colour—Silver

INSTALLATION

Archi-Frame can be installed using double sided tape or screw fixing.

The units are available with or without countersunk holes.

SIZES

Archi-Frame is available to suit the following paper sizes:

- A3 Portrait & A3 Landscape
- A4 Portrait & A4 Landscape
- A5 Portrait & A5 Landscape
- A6 Portrait & A6 Landscape

HOW TO OPERATE

Simply remove the clear flexible cover with a suction cup, change or insert paper and replace cover.

Archi-Frame is suitable for interior use only. It is not water tight.

OPTIONAL INSERTS
