

Size & Layout Information

Vertex Series is available in a variety of sizes.

The system is offered in both single and double sided options.

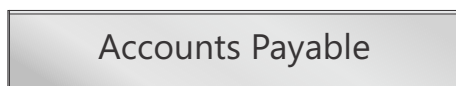

You can design your suspended sign with as many channels as you need, keeping in mind ceiling height and weight limitations.

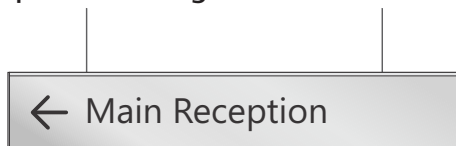

Slide your selected insert panel into the channel with the completed graphics.

There are a range of materials available for insert panels. Supply your own or choose from the options offered by S2K.

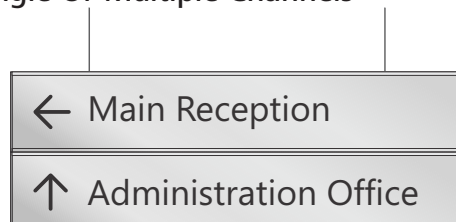

Wall or Door Mount

Suspended - Single Or Double Sided

Single Or Multiple Channels

SIZES

Vertex Series is available in the following sizes:

Channel Height Options:

- 80mm, 100mm, 120mm, 150mm, 180mm

Channel Width Options:

- 450mm, 550mm, 650mm, 750mm, 900mm,

LAYOUT OPTIONS

Design your sign to suit your needs:

Wall or Door Mounted

Mount with double sided tape and silicone

Single or Double Sided

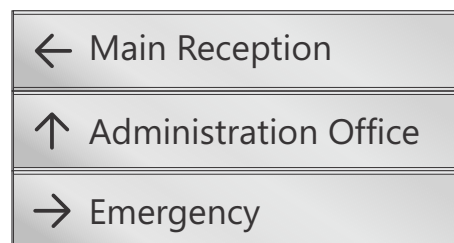

Please specify whether you require your sign to be Single Sided or Double Sided.

Length Of Suspension Wire

Please specify how long the suspension wire needs to be. We supply all suspended signs fully assembled including the wire which can be cut to the required length.

All Vertex Series signs are supplied assembled with braided stainless steel wire. (Unless otherwise specified).

Wall Mounted Sign with Multiple Channels

1. Select the number of channels you need
2. Select the height and width of each channel
3. Select the type of mount - Wall or Suspended
4. Select Single or Double Sided if Suspended
5. Select the length of the wire if Suspended
