

PAPER HANGER SERIES

Paper Hanger Series attached to an AM Series Sign

Registered Design

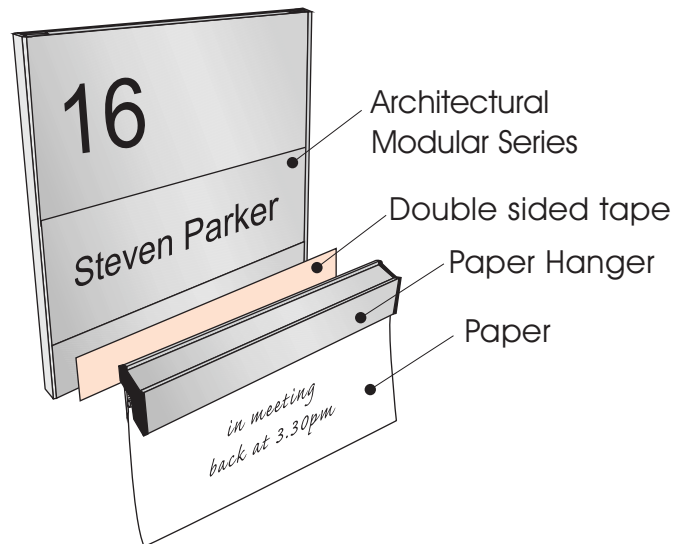

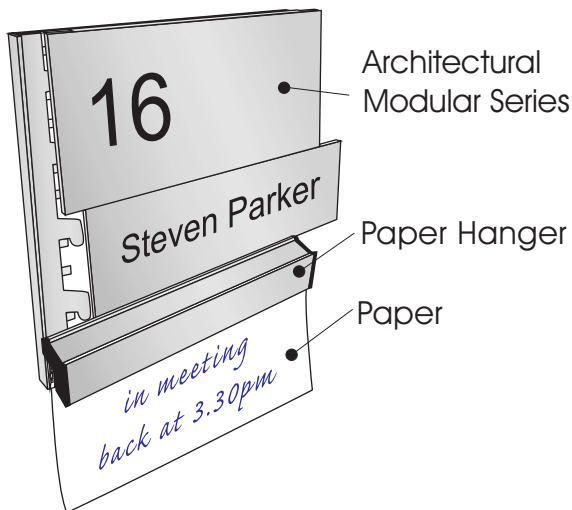

HOW IT WORKS

This is an example of a Paper Hanger mounted to an Architectural Modular Series Sign.

The Paper Hanger extrusion is 21mm high, as is the smallest AM Series Insert.

If incorporation is required, the Paper Hanger is adhered to the AM Series Insert with double sided tape.

Registered Design

- All Inserts are interchangeable, even those with a Paper Hanger attached.
- Paper Hanger is 21mm High to suit the smallest AM Series insert.

- Paper Hangers are available in lengths up to 1900mm long.

They can be used alone and attached directly to the desired surface or they can be attached to the AM Series.
